Gold Mountain gold galore! James Long, jr., of Gold Mountain fame, arrived in the city from Richfield Monday night with his pockets full to overflowing with gold quartz from his ammoth mine in Gold Mountain district, and when seen by a Herald reporter yesterday he was showing these specimens to his many friends and ac quaintances in Zion, the samples of ore

quaintances in Zion, the samples of ore being so plentifully sprinkled and perpeated with the yellow metal in its native state as to elicit many expressions of surprise and admiration from those who were favored with a look at them.

Besides the quartz Mr. Long had a carefully tied package in his pocket, which contained placer gold taken from the decomposed ore found on either wall of the Mammoth ledge, the gold being quite coarse, the result of a few pannings being sufficient for the making of a good-sized ring which Mr. Long proposes to wear as a substantial Long proposes to wear as a substantial example of what the mines of Gold Mountain district are capable of do-

Mountain district are capable of doling.

In referring to the Mammoth, Mr.
Long stated that the mine was looking
exceedingly well, and that in its development this summer he has blocked
out splendid bodies of good milling ore,
the mineral chutes being accompanied
by streaks or small bodies of high grade
stuff which are fairly alive with the
yellow metal, as well as with silver,
the invariable companion of the king
of metals, and so flattering is the showling that Mr. Long states it is the intention to build a ten-stamp mill and
concentrator at the mine in the spring,
and that with this in view he will increase the force this fall and work the
property all winter, it being the expectation that by the time the mill is up
and in operation enough ore will be
blocked out ready for extraction to
keep the plant in opnstant operation
for an indefinite period.

Mr. Long looks for the erection of
several other mills in the district during the coming year, and he says that

are working in very hard rock at present, but report very encouraging signs in the face of the tunnel.

The shaft on the Horse Shoe group

The shall on the frome Side group has been equipped with a new whim, and the contractors, Lund and Lamb, are putting every energy to sinking as fast as possible, this group, the property of Messrs. Campbell, Lund and Johnson, promises to be a great mine. They have now over four feet of quartz of mod milling value at a dark of the good milling value at a depth of 100

The leasers on the Homestake No. 5 are sinking their shaft as fast as muscle and powder will put it down, and report the ground looking better with each shot.

ACTIVITY IN STOCKS.

Considerable Fluctuation Noticeable Yesterday In the Market.

While the stock market was strong and active yesterday, considerable fluctuntion was noticeable in a number of leading securities, the windup of the morning session of the exchange show-ing more gains than losses. In the listed stocks but little was

In the listed stocks but at the done until Geyser-Marion was reached, Centennial-Eureka being wanted in ten-share lots at \$30. Geyser-Marion was quite a free seller, but at a decline below former quotations, altitude to the stock was semantial. cline below former quotations, aithough the stock was somewhat stronger at the close. Daisy was called for the first time, and although this west dip producer and prospective dividend payer did not participate in the dealings of the day, it was wanted at 59 cents, with offerings at 65. Mammol. recorded splendid gains, a board let changing hands at \$1.81, the stock being wanted at the close at only half a cent below this figure, with offerings at \$1.81%. Mercur was inactive and

a cent below this figure, with offerings at \$1.81\%. Mercur was inactive and sluggish. Utah advancing to 69 cents in the bidding.

The unlisted securities disclosed more life and activity than the listed stocks. Chloride Point leading with a sale at \$1. Dexter started out exceedingly strong, and with marked gains to its credit, a sale being chronicled at \$1.75, but before the close the bears began harmering this stock on the head, with the result that it made transfers as low as \$1.65, the closing quotations being \$1.65, bid and \$1.70 asked. Omaha found a buyer at 50 cents, Lower Mammoth \$22, while South Swansea was a prime

Lode, De Lamar, Nev.: The Magnolia mine is still improving and when the gas-oline hoist is put to work, there is no telling what dividends Colonel Eisenmann will be declaring.

T. W. Bowen, the well known mining operator, left yesterday for Beaver Lake district with the intention of making an examination of the Wasatch and other properties in that section.

THE FIRST GOLD DISCOVERY.

Will Build a Monument to Mark the Spot.

A movement has just been started for the building of a monument to mark the spot where gold was first discovered in the Rocky mountains, says the New York Engineering and Mining Journal, An association is to be formed and the monument is to be erected where the spot where A Inches men was hide.

ledge which crops so boildy on the surface.

At the meeting of the board of directors of the Galena Mining company, held Monday afternoon, Dick Sutton was appointed superintendent of this Fish Springs property to take the place vacated by the resignation of Ed Hoffman. The report of Manager Joseph was also spread before the meeting, while several suggestions were considered one of which was to the effect that the bottom of the Galena and Utah shafts be connected by means of a drift with the idea of handling the waste from the Utah through the Galena shaft, but as the Utah is now erecting its own hoist, it is hardly likely that this proposition will be feasible or acceptable. triay has proven the correctness of this theory.

Mr. Brubnek, as well as others inter-ested in this property, are highly elated over the report of the find. Messrs. E. M. Weller, Charles Van Alvstine and Charles Crismon, of the Utah Mining company, have returned from a visit of Inspection to this Fish

Springs producer and dividend payer, and they bring back with them the pleasing report that this valuable property is looking well in all of its workings and that as depth is attained the one bodies continue to hold their own its read shape. Hirsching's Mining Academy Reopened.

tually to connect with the old workings of the property for air as well as to facilitate operations.

The Utah has a carload of high grade ore en route to the Salt Lake market.

Buffalo, N. Y., Sept. 27.—A special to the News from Niagara Paulis Out. the News from Ningara Falls, Ont .. the News from Niagara Falls, Ont., says: The most appalling storm in the history of Niagara peninsula passed over the strib of land between Lakes Erie and Ontario, passing almost parallel with the Welland canal, cutting a swath 300 feet wide through the peninsula and cutting off a portion of it, went almost at right angles with the main bath of the cyclone and took in Tonawanda. At an early hour this morning the number of lives lost is estimated at six. However, at least six more are fatally injured. The death list may reach 15.

NEWS FROM OVER THE STATE.

FORNICATION CASE AT PROVO

GIRL TELLS ALL ABOUT IT AND THE BOY DENIES ALL.

American Fork Damsel Accuses a Prominent Lehi Citizen of Her Undoing In Last April.

(Special to The Herald.)

Provo, Sept. 27.—The case on trial today was that of state vs. Paul Stewart of Lehi, a young man who has always sustained a good reputation. The idiotement on information charges him with the crime of fornication committed with one Abbie King of American Fork on the loth day of April in the present year.

The first witness called was the said Abbie King, who related the unnuppy circumstance of her present trouble. It appears from her testimony that on the 19th of April she went with defendant 1. Beck's Hot Springs where they went in bathing together. After their bath they returned to American Fork, but while on the road they imbibed some spiritous liquor, which partially intoxicated the girl. Upon arriving in American Fork they called at Stee's drug store and got some medicine, then drove to a friend's house where Miss King intended to stay all night. Here they were alone until a late hour and the deed was done. This was only the second time that they had ever been together, however, it was not the last.

Witness also stated that defendant promised to marry her, but later refused to do so when she asked him to. Counsel for the defendant, Attorney Dave Evans of Ogden examined the witness and drew from her statements to the effect that she was in the habit of going out with boys.

Mr. King, father to the last witness.

Mr. King, father to the last witness, testified that he knew the couple were going together occasionally, but never suspected that anything wrong was going on.

suspected that anything wrong was going on.

Mr. Steel, the druggist, stated that they called at his store on the night of April 19th, and the girl being cold and trembling, bought something to warm her up.

Mr. W. E. Julian, her uncle, said that he took young Stewart down to see the girl and overheard a conversation which took place between the two, wherein the boy noknowledged the promise he had made to marry the girl and further stated to the witness that he could not marry her, as he was not of age and his parents would not fillow him to do so.

Mrs. Steel was called to give some expert testimony, but her evidence was ruled out.

pert testimony, but her evidence was ruled out.

This closed the case for the prosecution, whereupon Attorney Evans moved for a dismissal on the ground of insufficient evidence to convict. Motion denied.

Joseph Thomas, Charles Karren, Jesse Yates and others were called by the defense and testified to the good reputation for chastity and virtue of the defendant and the bad reputation for chastity and virtue sustained by the girl.

A night session of the court was held. The defendant testified that he was virtuous and denied having made any admission of guilt or promise of marriage.

The case was not concluded tonight.

and if they so decide there will be a large attendance from this camp to the great musical festival.

Attorney F. A. Holtzhemer left this morning for Salt Lake, where he will lead Miss Susan M. Wimmer of Payson to the aitar this afternoon. The groom is very popular in Eureka society, and the happy couple will receive a hearty reception on their return to the camp.

BIT BY A DOG.

Son of John M. Wilson of Provo Frightfully Mutilated.

(Special to The Herald.) Provo, Sept. 27.—Mrs. Sparks returned Provo, Sept. 27.—Mrs. Sparks returned to her home in Nephi yesterday, after spending a few days here with ber friends on her return from Salt Laike, where she attended the wedding of her son, Ed Sparks, with Miss Stella Jaques of Provo, Last evening J. C. Jensen, formerly of Denmark and now of Lebi, come over to the Garden City and was made a citizen of the United States.

John M. Wilson's little boy was playing yesterday afternoon with Reed Smoot's large dog, a dog as large as a two-year-old steen, when the animal became angry and bit the little fellow on the leg, tearing the flesh on the knee so that it had to be sewn up. Mr. Wilson says the dog must die.

SUGAR FACTORY BUSY.

Cattle Feeding Company Handling Many Head of Stock.

(Special to The Herald.)

Lehl, Sept. 27.—At the sugar factory this week everything is running smoothly. Some 1,200 acres of beets have been ordered dug and delivered. The farmers are taking advantage of the fine weather and rushing matters. They are now about 1,000 tons shead of the factory. The crop is good this season, some farmers getting a very heavy acreage, running as high as 22% tons to the acre.

The Cattle Feeding company, located near the sugar factory, has 500 head at its yards, 200 calves and 100 head grazing on the sugar company's farm. They expect to feed a large number this winter. Mr. W. L. White is the prime mover in the business and has ordered the purchase of 1,000 tons of hay. (Special to The Herald.)

OLD FOLKS' PARTY Assemble at Mrs. Wilde's Home at Coalville.

(Special to The Herald.)

Coalville, Sept. 27.—The anniversary of the birthday of Mrs. Sarah Wilde the pioneer lady of Coalville, and president for many years of the Coalville Relief society, was observed today, as it has been for several years past, in the capacity of an old folks party. Grandma Wilde was 81 years old yesterday, but the event was celebrated today. The occasion was a memorable one. All the old people of the place over the age of 50 years were specially invited to attend and, with a few exceptions, they were there.

Coalville News Notes.

Keen interest is displayed in political Farm, Near Beker City.

On Wednesday a good-sized black bear came down from the lofty mountains and proceeded to skirmish around, perhaps in search of a fat calf or pig. On George Ebell's fine stock farm, which is only about 10 miles west of Baker City, says the Democrat. While bruin was intent on his investigating tour three dogs, which had been partly trained for bear hunters, discovered and tackled the brute. The bear being young and unwary, also hog fat, and somewhat lazy, promptly "shinned" up a small tree, where he was found by George Haskin and assassinated by a rifle ball.

The body of the critter was brought to this city, and was bought by the butchers and packers, Carter & Miller. When dressed, or undressed, the bear was found to be a rolling fee thing, weighing, when prepared for the meat block, about 200 pounds. circles here in the campaigns in the mountain states, notably in Wyoming. The president himself has expressed his concern in the election in that state, and during this week the Repub-

Senator Heitfeld of Idaho expresses great confidence in the success of the Populistic ticket in that state, although he admits that the prespects are not as good as they would be were it not, for the division in the Populist party. He says there is no chances whatever for the electing of the straight McKinley Republican ticket.

During his visit to Washington Senator Clark took up the matter of the

6.500.000

During his visit to Washington Sena-tor Clark took up the matter of the establishment of an army post at Sher-idan. He presented petitions from a great many residents in the region that would be protected by such a post, and presented very forcible argu-ments in favor of a new fort at that point. There seems to be no doubt that as soon as the war department com-pletes its distribution of the regular troops that a cantonment will be es-tablished at Sheridan. The first troops to be sent there will be two companies

pany filed a petition in the United pany filed a petition in the United States circuit court here today, praying for an injunction restraining the striking wire drawers from interfering or intimidating men who desire to work in the American wire mill in this city. It is allexed in the petition that the strikers, by means of threats and violence, keep non-union workmen out of the company's plant. The case will be tried before Judge Taft here on Oct. It. Judge Taft vesterday, at Cincinnati, refused to grant a preliminary injunction against the strikers until their side had been given a hearing.
